Activities Director: Shelly Schulenberg  
School Counselor: Leah Fischer

May 8, 2026

Scribner-Snyder Patrons,

Scribner-Snyder Community Schools would like to share an important update regarding our 9–12 secondary school's recent designation through Nebraska's AQuESTT accountability system.

This year, Scribner-Snyder Secondary School was identified as a "Needs Improvement" school and has subsequently been selected by the Nebraska State Board of Education as one of three Priority Schools in the state. Scribner-Snyder High school has been designated "Great" the last few years, making this year's designation unexpected.

As part of the Priority School designation, Scribner-Snyder will receive additional support, resources, and guidance focused specifically on grades 9–12. NDE will work alongside the district and provide an external team to assist in conducting a comprehensive needs assessment and developing an improvement plan tailored to our students' and community's needs.

At this time, the district is still learning more about the identification process and the next steps involved. We anticipate gaining greater clarity as we move through the review process with the Nebraska Department of Education in the coming months.

We are incredibly proud of the hard work and dedication demonstrated daily by our staff, students, and community. This process will allow us to reflect on our strengths, identify opportunities for growth, and continue building a strong future for Scribner-Snyder students.

The district is committed to transparency throughout this process and will continue to provide updates as more information becomes available.

Thank you for your continued support of Scribner-Snyder Community Schools.
